THE TRADE!

We are now ready with the largest and most complete stock of Saddlery. Harmens and Cellars even exhibited in this city—all of our own manufacture, and far superior in Quality, Style and Finish to goods produced in any other market. Embraced in our stock are a large number of new styles of SADDLES AND BRIDLES our own designs) not to be found in any other house. There is no reason why, after an experience of twenty-five years in the manufacture of these goods in this city, that we cannot supply your wants at as low figures as New York, St. Louis, Cinetimati or Louisville. We have every labor-saving machine known to the trade, our hands as skillful, and our material costs no more, and we shall certainly be satisfied with as small profits, as our expenses are much less. Freight is a big item on common goods. To satisfy rounselves, order a small line of samples and compare with goods from other markets; if not satisfactory, return at our expense. With thanks for the liberal patronage extended us, and carnestly soliciting your orders, which shall have prompt attention, we are, very respectfully.
